**NOTES**

1. To change color at end of row: Work last stitch in old color to last yarn over, yarn over with new color and draw through all loops on hook to complete stitch. Drop old color, continue work with new color. You may fasten off the old color or carry it loosely up the side of the piece. If you choose to carry unused colors up the side of the piece take care to cover these strands when working the band along the short edge.

2. Take care when working the modified front post stitch. The stitch in the current row, behind the front post stitch, is not skipped. Instead, it is worked into as part of completing the modified front post stitch. This helps keep the fabric smooth on both sides.
